

C-500-AH ALUMINIUM/PVC/STEEL PROFILE COPY ROUTER MACHINE

DESCRIPTION

Single headstock milling machines (Pantograph). For milling in Aluminium and Iron shaping with 1,5mm thickness.

CHARACTERISTICS

Semiautomatic machine to make lock housings, hinges, cylinders in aluminium or PVC.

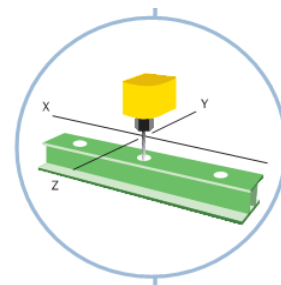

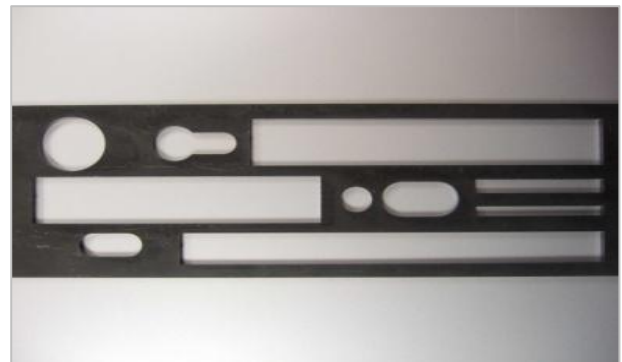

Electronic spindle speed regulator for Iron milling

Automatic refrigeration by spraying.

The headstock has a pneumatic locking device to choose the height for the milling by pushing the left handle switch.

Matrix pins hold Up/Down by pushing the right handle switch

MACHINE MATRIX

SPECIFICATIONS

Desk size	500X280 mm
Longitudinal course	260 mm
Transversal course	140 mm
Vertical displacement	150 mm
Engine	1 Hp
Cutting speed	9000 rpm
Diameter milling cutter handle	8 mm
Weight	150 kg
