

V - 460

ALUMINIUM/PVC CHIPS VACUUM EXTRACTOR

DESCRIPTION

The optimum maneuverability, compactness and efficiency guarantee constant suction performance during phases of use.

This new range is ideal for collecting steel, dust, aluminium and plastic shavings.

Also, shake turbine air filter series, ensures perfect and efficient filtration.

SPECIFICATIONS

Engine	2 Hp (3-PHASE)
Engine	2 Hp (1-PHASE)
Diameter of the intake vents	1X100 mm
Suction capacity	20 m ³ /min
Storage capacity	100 m ³
Weight	100 Kg
Dimensions	181X80X73 cm.
